Theology Of The Old Testament: Testimony, Dispute, Advocacy

WALTER BRUEGGEMANN

THEOLOGY OF THE OLD TESTAMENT

Testimony, Dispute, Advocacy

DOWNLOAD EBOOK
**Synopsis**

In this powerful book, Walter Brueggemann moves the discussion of Old Testament theology beyond the dominant models of previous generations. Brueggemann focuses on the metaphor and imagery of the courtroom trial in order to regard the theological substance of the Old Testament as a series of claims asserted for Yahweh, the God of Israel. This provides a context that attends to pluralism in every dimension of the interpretive process and suggests links to the plurality of voices of our time.

**Customer Reviews**

Any serious student of theology must not miss the excellency of this book. Brueggemann with his two doctorate degrees is qualified and his writing experience of about 20 other books makes him the man of the hour for Old Testament. He painstakingly starts with Luther and brings the movement of theology up to present in numerous chapters. He is not afraid to address the issues most have in
weakness or inability not addressed. He starts to build upon the foundation that Yahweh is Yahweh in relation and that Israel is the witness of Yahweh. Their witness is recorded in Old Testament Scripture. Using verbs, adjectives and nouns we can start to see Yahweh in relation, action and his character. He is not afraid to deal with testimony and countertextimony. Nor is he afraid to reveal and deal with tensions between issues where most have avoided or compromised. Neither does he soft stroke the Psalms of complaint in contrast to the high Psalms of faith and praise. Neither is he soft when he mentions Israel's commitment to justice in "alternative to the deathly ideology of technological, military consumerism". He beautifully reveals Yahweh's relation with Israel and with the world. God's care for the world and the suffering of humanity. And revealing to all including Christians that the "Law" is not the legalistic document portrayed by most as supposed in contrast to "Grace". Israel with joy received Torah and it brought order to chaos. Although he touches on the Holocaust a few times he never brings a conclusion into his book on the subject. He leaves you wondering what he thinks and why he brought up the subject. I would like to have had his thoughts and some insights from scripture. Just the mention of the Holocaust brings questions and a thirst for more understanding. Your understanding of theology, Old Testament theology and of the intricate God of the Bible will be profoundly expounded and expanded. A must and a delight!

Just what I needed, and at a great value!

This was a very helpful review of the way OT Theology has been done and debated since the Reformation; followed by a solid study of the great themes of the OT from the writers lifetime work in the field.

This book gives an excellent understanding of the First Testament. A must for anyone serious about being able to read the Bible.

Now I have a much better understanding of the meaning of "Covenant"

A little difficult to read but good.

excellent

An excellent reference book.
