Margaret Wise Brown, author of Goodnight Moon, Sailor Dog, and hundreds of others, is one of the most beloved children's book authors of all time. Joan Paley is the illustrator of many books for children. She lives in North Scituate, Massachusetts.

Very cute book. My daughter is in Kindergarten and this is one of the first books we got her to read. She knew most of the words and I like that there aren't many words on each page so it doesn't take forever for her to read.

Great book for beginning readers and young children! Nice illustrations. Good color sight words. Our new reader really enjoyed this book.

Maybe a classic, but we didn't like stars... The book wasn't fun and graphics felt old which didn't help keep my readers attention.

I Like Stars -Lexile:  
"I Like Stars" by Margaret Wise Brown and Joan Paley is a whimsical tale of different stars. From red stars to blue stars, this relaxing story reminds me of Ms. Brown's better-known title "Good Night Moon." Indeed the two books would make the start of a relaxing bedtime routine for a young child. The illustrations by Joan Paley are a perfect match for the story and early readers are guided through the story, with predictable text and pictorial clues to encourage young readers to master many color words such as: red yellow blue green As well as an opportunity to practice decoding words with "ight" ending sound such as: bright light night Margaret Wise Brown, well known for throwing a challenging word in or two to keep her readers on their toes, also includes the word "straight" which provides a little challenge for young readers as they learn to blend vowel sounds. As my daughter would often remind me, when she was much, much younger, "When two vowels go a walking the first one does the talking." Margaret Wise Brown was one of those incredible authors whose stories touched the hearts of so many generations, and one can almost imagine a young Margaret looking out at the night sky as they read this story.

Nice simple book for young children. Just a few words on the page appropriate for the young attention span. Good for bedtime:-)

Not exciting or challenging enough for my 3 year old grandson.

It's a book about different colors, and although it is a cute story, my Kindle does not have color so it really takes away from the story. It has the same issue with a lot of blank pages, as do the other children's books I have on my kindle. Blank pages aren't a huge issue- just more of a nuisance than anything.

Great book
