Customer Reviews

Created in partnership with scholars from the National Council for Geographic Education, Geography Alive! Regions and People creatively challenges students to use the tools of geography to view, analyze, and understand the world around them.

I purchased this book to use as resource in my classroom. I couldn't use it without the other parts of the geography alive program. I wish I never bought it.

Very easy to use and excellent service. Thanks.

Super happy to find the geo alive for my classroom.

I ordered a Used Good Condition book and received one so marked and unreadable it was trash in my opinion. Bright markers sometimes very dark covering the words, were used throughout the Entire Book! Cover to Cover markers, writing, names, notes, and blocked out text.I could not use this book at all.

I purchased this text book to use as resource in my classroom. I bought it as "like new" but what I received was a text book with writing all over it. A student who used the text book placed her name in highlighter all over several pages along with inappropriate drawings. It's safe to say that I didn't put it out for my students to use. In fact I couldn't really use it without the other parts of the geography alive program. I wish I never bought it.
