Abnormal Psychology Across The Ages [3 Volumes]

Synopsis

In these three volumes, a team of scholars provides a thoughtful history of abnormal psychology, demonstrating how concepts regarding disordered mental states, their causes, and their treatments developed and evolved across the ages.â € Explains historic views on disorders, including causes and treatments such as the belief that depression in women stemmed from "a wandering uterus," homosexuality being categorized a mental disorder, and the "treatment" of various disorders via blood-letting or lobotomyâ € Explains the advent of psychology/psychiatry/psychologists/psychiatrists; the Diagnostic and Statistical Manual of Mental Disorders (DSM), the fields' bible of mental disorders and treatments; the evolution of the field; and the political controversies it has faced since its inception â € Examines controversial topics across time, ranging from human rights of the mentally disordered to multicultural views on what does and does not constitute a disorder

Customer Reviews

"[I]nvites the reader to consider recurring themes and trends in the conceptualization of abnormal behavior from ancient to modern times. . . . Abnormal Psychology Across the Ages is an important work that presents a well-integrated, tersely presented, topical, panoramic, and interdisciplinary discussion of key historical, contemporary, biological, behavioral, physical, and philosophical trends that lead us back to examine our beliefs about what constitutes adaptive as well as maladaptive behavior." - PsycCRITIQUES "This reference set will be useful to high school or undergraduate

students writing about mental illness in history and in the present. . . . Overall, though, the chapters seem well-written and well-researched, with reference lists. . . . Summing Up: Recommended. Lower- and upper-level undergraduates; general readers." - Choice

Thomas G. Plante, PhD, ABPP, is the Augustin Cardinal Bea, S.J. University Professor and professor of psychology at Santa Clara University, and adjunct clinical professor of psychiatry and behavioral sciences at Stanford University School of Medicine.
