Customer Reviews

David L. Norton is Professor of Philosophy at the University of Delaware and author of the highly regarded "Personal Destinies: A Philosophy of Ethical Individualism".

This was my first purchase for a class some time ago writing only to express that even from a few years apart that this is to make known of the physical evidence from my first review a [Short History of the Movies, Short History of the Movies, A , Abridged Edition (11th Edition)] about what a good second option can be, the first book was mentioned by the instructor when it wasn't available in the book store.

This tome provides a wide variety of readings on love and philosophy. The editors believe that love is a profound measure of human life, and a person's philosophy of love permeates his or her philosophy of life. The text includes more than forty contributions, most of them classic essays with regard to love. "Developing a philosophy of life is not something we can relegate to others to do for us, like house building or plumbing repair, but something each of us must do for himself. There is no escaping it, each of us is required to be something of a philosopher" (1). The editors divide the book into six parts. Part one, titled "Romantic Love: Madness of a Normal Man," has eight readings on romantic love. The second part includes ten essays on eros. This section is titled, "Eros: Love As

Aspiration toward the Ideal." Part three addresses agape love and is titled "Agape: The Divine Bestowal." The editors title the fourth section of the book "Tristanism and Chivalric Love." Part five deals with friendship love: "Friendship: `Because It Was He, Because It Was I'." The final section of the book is on love involving fellow feeling: "Fellow Feeling: Universal Bond of Humankind." Thomas Jay Oord

I began reading this book as a textbook when in one of Professor Norton's classes at the University of Delaware, and have repeatedly revisited it and loaned it over the years. I found it to be a fantastic introduction to the styles of some of the most renowned philosophers. It's a good blend of "light" philosophical reading and diverse points of view on the types of love.
