The Star Wars Cookbook II -Darth Malt And More Galactic Recipes

Synopsis

Even the pickiest of Gungans will eat their fruits and veggies when Bubble City Salad and Boss Nass Broccoli are on the menu. With this exciting new sequel to the best-selling *The Star Wars Cookbook: Wookiee Cookies and Other Galactic Recipes*, Star Wars fans of all ages can cook up more out-of-this-world fun. From razor-toothed Opee's Sea Crunch (for fish fillets with a real bite) to Darth Double Dogs (doubling as a light saber you can eat!), this intergalactic Star Wars cookbook features healthy snacks, delicious dishes, sweet treats, and easy main courses no Rebel can resist. Featuring hilarious photographs and recipes and wipe-clean pages, *The Star Wars Cookbook II* even includes a shiny plastic stencil of Darth Maul to help decorate culinary creations. And age is no issue when the Force is with you—adults as well as kids will have a great time with this book.

Grade Level: Preschool - 7

Customer Reviews

Grade 3-5—This delightful sequel offers 29 recipes in five categories: breakfasts, snacks/sides, main courses, desserts/treats, and drinks. What better way to get kids to eat broccoli than to have them make "Boss Nass Broccoli?" The introduction provides basic safety tips and a list of tools needed. Most of the creatively named recipes, such as "Handmaiden Hash Browns," "Sith Speeder Sunrise," and "Amidala Challah," are simple to make and require few ingredients. However, the authors warn readers about those that take hours to prepare. The step-by-step directions are easy to read and follow. The highlight of the book is the glossy colorful photos of action figures in scenes with the prepared food. The pictures truly inspire readers to try the recipes. The pages are sturdy and shiny

and easy to wipe clean. The spiral binding enables the book to stay open while cooking. It even includes a plastic stencil to decorate one of the dishes. Sandra L. Doggett, Urbana High School, Ijamsville, MD Copyright 2000 Reed Business Information, Inc.

PUBLISHERS WEEKLY Pickle Jar Jar, Darth Double Dogs and Qui-Gon Jinn-ger Snaps are among the 29 recipes in *The Star Wars Cookbook II: Darth Malt and More Galactic Recipes* by Frankie Frankeny and Wesley Martin, photos by Frankeny. The fantastically styled dishes, many imaginatively presented with action figures, may be enough to lure Star Wars fans to the kitchens. For convenience, the pages lay flat in a concealed Wire-o binding and, for a fun extra, a Darth Maul template is included for help garnishing a dip or a cake.

Based off the high reviews, we purchased this book to spend the love of cooking with the kids and for the love of star wars. The recipes are not good, the images in the book are awful. Everything in the book is dated. This book is like amateur hour. All that was done was change the names of everyday recipes such as adding malted milk balls (aka Whoppers) to vanilla ice cream and milk and you have "Darth Malt" or tell you to buy refrigerated bread sticks, put salt on them and bake to make "Star Wars Pretzels" Wow, nothing special here. Don't waste your money.

Bought 1 and 2 for my 10 year old grandson who wants to learn to cook. The quality of the cookbook is very nice with laminated pages and very colorful pictures. Recipes are pretty basic but with new names to coincide with the Star Wars title. An adult should be present when reading through these recipes and determining which steps are safe for kids to do and which the adult should take care of. For instance, the hash browns, required placing a plate on top of a hot skillet and flipping over! Definitely too dangerous for a kid and even some adults depending on the pan size used.

Grandson loved it. A great birthday gift for a 7 year old.

I bought this cookbook and its prequel "Wookie Cookies..." for my sister who is a big Star Wars fan. Her reaction alone when she opened them Christmas morning was worth the cost of the books. It was by far the star present of the day. As she paged through the books reading the punny recipe names and looking at the photos, she was laughing so hard she was crying, which made the rest of us, who are not Star Wars geeks, laugh so hard our stomachs hurt. Each recipe is paired with a

photo of the completed recipe used as a prop in a scene with elaborate backgrounds and miniature figurines, and they are impressively well done! And hilarious!! Clearly a lot of loving effort was put in to creating it. The books themselves are good quality, and the finished recipes that I've tasted have been pretty tasty too. Perfect for a Star Wars fan who likes to cook, or even one who only cooks rarely - you don't have to be experienced to follow the recipes.

This book is the following volume to the Star Wars Cookbook: Wookie Cookies and Other Galactic Recipes and like its predecessor it has the same beautifully illustrated, spiral-bound, hardcover format. It is another must buy for serious Star Wars fans that want to keep adding delicious Star Wars themed recipes to their lives and want to have fun while preparing their meals. The book is divided into five sections for easy reference: Breakfasts, Snacks and Sides, Main Courses, Desserts and Treats, and Drinks. Each Star Wars themed recipe is fully and clearly explained (ingredient measurements and preparation instructions) for easy understanding. The book's introduction contains practical advice on cooking safety and includes a guide of the cooking tools you'll need. As an added bonus, the pages of the book are laminated for easy, stain-free cleaning. You will love all the recipes, and will probably recreate, the wonderfully photographed serving suggestions given in the book like the Booma Breakfast Tarts, the Pit Droid Pizza, and the Qui-Gon Jinn-ger Snaps which are decorated with the action figures of known characters of the Star Wars Episode I movie. Other recipes' presentations feature enjoyable visual puns like the Boss Nass Broccoli, the Protocol Droid Pasta and the Darth Maul Dip (which even includes a plastic template for decoration). Some are even very basic, but really tasty, recipes that have been given clever Star Wars-sounding names like Darth Malt, Panakacakes and Pickle Jar Jar. Buy this book, and share the joy of cooking and your love of everything Star Wars with kids and adults, family and friends. And May The Force Be With You. I would also recommend buying the Star Wars Cookbook and The Star Wars Party Book along with this one as they all make a complete, excellent and fun idea source book for everyday cooking and Star Wars themed parties.--Reviewed by M. E. Volmar

Just like the first cookbook, this is perfect for any Star Wars fan who likes to cook!

I could not believe it when I found this. I just had to get it and let me tell you, I was not disappointed one bit. The recipes are Star Wars themed and everything is actually delicious. It is a good fun gift and it makes for an exciting time.

My one 10 yr old grandson has started cooking and wants to be a chef...he was very excited to get his first cookbooks
