## Synopsis

One of the best approaches is to 'know the competition,' and in this regard Jason Evert's book will prove to be a useful tool in combating the Jehovah's Witnesses' mindset and doctrines. This work is intended for the 'average Catholic' who has no formal training in theology, and so it is designed to be easily understood and practical. Beginning with the foundations of the Watchtower organization, the author deals with its presidents and history, moves next through the basic structure and content of the Jehovah's Witness' world, and then discusses the various doctrines of the Watchtower and how to refute them. Particular attention is given to some 'favorite verses' and standard topics that a Witness will typically use in attacking the Catholic faith. Finally, some extremely helpful and practical suggestions are offered for how to interact with someone who has become a Jehovah's Witness.

It is time that Catholics begin to reclaim the spiritual ground lost to the Watchtower organization, and with the help of this book, I am confident that this goal is well within our reach. --Joel Peters, author, teacher, and authority on Jehovah's Witnesses

"Answering Jehovah's Witnesses" walks you through the doctrines of the JWs, revealing where and why they're wrong--giving special attention to favorite verses and standard topics that a JW will use in rejecting the Catholic faith. The book provides helpful and practical suggestions for sharing your faith with Jehovah's Witnesses and planting seeds of truth. Planting seeds is easier than you might think. While most JWs appear to be well-informed Scripture scholars, they're just reading from a

script with canned answers to your objections. For the most part they're surprisingly unfamiliar with the Bible. It doesn't take much to throw a monkey wrench into their belief system. "Answering Jehovah's Witnesses" will show you how.

It's a small book that gives an overall general look at the big differences Jehovah Witnesses have with Christianity. The book brings their history and references from their publications, it is fair in showing that some of the doctrines of their roots are not followed anymore, and gives biblical reference where they steer off. I have to admit, he could have made a stronger case because I see a couple of holes like lack of extensive Greek definition and could have looked at Jewish tradition to defend practices that Christians do. I do see this book as a quick guide that can open your mind to search on your own, which I think it's good since you will not rely on an author for everything. I'll keep looking back to it and help me understand their view, my faith, and the history of God in this world.

This is a tour de force for those interested in the real history of this disturbing sect. The author uses the Witnesses's own literature, takes us into the insights of their beginnings and shows how this organization has got it all wrong. In the mix Mr. Evert provides you with the tools necessary to respond and evangelize the Witnesses. The book is a solid punch into an organization that would make illogical claims, is willing to stray you from your salvation and does so excellently. If you have a family member, or know someone who is considering this false path to salvation, this is the book to read and share.

Honestly I didn't read it. I bought it for a friend who had been confused by studying with the JWs and she said it really cleared some things up so mission accomplished = 5 stars.

Wow, what a way to learn your faith more but by learning what other people believe. I took it for granted some of the Catholic teachings till I looked at the Jehovah's beliefs.

I got a much better understanding of the Jehovah witnesses and their inaccurate Bible translation. There were many good ideas for discussion with JW members who come door to door.

gives a careful explanation of Jehovah Witnesses' history, beliefs and strategies for spreading their faith that is very helpful in evaluating their claims

Great resource in speaking the truth! Sadly our brothers and sisters who are Jehovah Witnesses are told not to listen.

Useful handbook.
