This is the Literature for Composition: An Introduction to Literature (10th Edition). I used this book for my English Composition Class the second part. I looked around online for the cheapest alternative to rent a book for this class. I found the cheapest on . I saved about \$20 more just by renting with . For those complaining of the condition of the book I don't think it's fair this is a USED RENTAL it's not going to be brand new or spiffy as long as it gets the job done and does not impede you from passing class and is not like falling apart at the seams there should be no problem. The book came in fair condition. I keep in mind that this book has probably been used and flipped through by countless other students as well. In terms of content it's an English book the pieces of

Literature that the authors chose were mostly either weird, or depressing and trust me I appreciate literature.

It arrived in okay condition for a rental, some bending and creasing of the pages. If your class turns out anything like mine, though, you'll just end up reading about two dozen of the stories and poems inside it, ALL of which are available for free online somewhere, Google them. Otherwise, our English Comp II class didn't use the book for anything else, I'd recommend not getting it and just using the internet.

This book was purchased because I needed it for a college class. It is very hard to read and the pages are so thin and delicate it is hard to turn pages without tearing or them sticking to one another! It made doing work difficult. Very limited information on MLA style writing also.

The content of the book is just outstanding!! I bought this book for English Composition class, and it improved my writing tenfold!! highly recommend this Book for college purposes!

Even though I had to buy it for college and textbooks are overpriced, this book is a nice collection of stories and poems that I found interesting and educating. Good book.

perfect

Good condition

The book looked nice and was clean.
