Customer Reviews

I think this is a book everyone should read once. When you become aware of the gradual signs of your own burnout and stress, you'll be better able to prepare or guard against it. For one reason or another, we're all facing huge levels of stress and I'm surprised there aren't more books on burnout. There is good advice in this book interlaced with compelling real life stories. We can all find ourselves in this book. Worth it.

Very useful information!
