Customer Reviews

I found this to be a great foundational textbook. It's clearly laid out and easy to follow, it takes you through the basic layout of political science theory as relates to world politics. I found the case studies appropriate and well explained. The "menu" analogy is not always easy to sustain, but as an introductory text I think it works very well to help conceptualize various theories. I purchased the kindle edition, by the way.

This is the first time that I want to write a review for the textbook that I purchased on . Compared to

other used book price, I decided to purchase a new condition from the . When I get the package, I found the package has not been completely unsealed at the bottom side. Then I opened the book and found that at least one page has small part missing and dark spots. Cover shows degree of wear. I won't be that confident any more to believe the textbook condition from .com.

One of the worst textbooks I've had to purchase thus far. Kinsella's orientalist lens shapes how he depicts the East and the rest of the world. I felt like I was tuning into FOX News every time I had to read a chapter.

A terrible choice for text books. Very hard to comprehend. The online study guide isn't even that helpful.

nice

I would give 5 stars but the smell was horrible. I had to wash it before wearing because it smells like mildew (very strong) right out of the bag. The shirt fits very nicely though and feels as if it will keep me warm during winter months. I want to order more but hesitate because of the strong mildew odor. The company needs to work on that. Otherwise, a perfect fit and nice shirt.

Ã Â Â^Â,,

Good buy. Not much marking within the text. The covers were solid. No pages were missing. I would recommend this service.
