Choose More, Lose More For Life

Synopsis

Transform Your Body, Transform Your Life! Each season, millions of viewers tune in to see Chris Powell lead extraordinary transformations on ABC's breakout hit reality-transformation show, Extreme Weight Loss. Now, building on the basic weight-loss philosophy introduced in his bestselling book Choose to Lose, Chris has created a transformation plan anyone can follow--one that recognizes that no weight-loss journey is the same, and that more options mean longer-lasting results. At the center of Chris Powell's Choose More, Lose More for Life is Chris's carb-cycling plan, which kicks your metabolism into full gear by alternating between low- and high-carb days. Never carb-cycled before? No problem. Powell provides all the information you need to get started and see immediate results. Been carb-cycling but need to shake things up? This book provides four different cycles--Easy, Classic, Turbo, and Fit--to help you find a plan that fits you. Chris also understands that weight loss plateaus when we get bored. So in this book, he focuses on choices--including more than twenty new workouts called Nine-Minute Missions--that pack maximum results into minimal time. He also offers more delicious and easy recipes to keep you eating well, more tracking logs to keep you motivated, and more success stories to inspire you as you write your own--one that lasts for the rest of your life!

This is such an excellent book. If a person doesn't lose weight by following this book there is something wrong. This book has really helped me much. There is no magic pill to lose weight and get healthy. It all depends on how much a person is willing to do and to sacrifice to attain a strong and happy healthy body. It all starts from the inside of a person. And this book is for the person who is willing to work the program laid out in this book. Chris and his wife are really anointed to teach others how to achieve health. Great book. A wealth of wisdom and love are in this book. Get it to start your own personal journey.

Lost 70#s using the book, thank you Chris!

I know they promote measuring using your hand, but I'm one who needs numbers. I wish they had provided a way to calculate Carbs, Protein and Fats for me with numbers. There were a few other holes too that I needed to resolve before I could adapt this program "for life". I got most of my questions answered in "Carb Cycling the recipe and diet book" by Jesse Morgan.

I am now 13 pounds from goal weight because I took a chance on Carb Cycling. Thank you Chris and Heidi!

I just started the book, but I love it so far. The way he describes how your life can be transformed for the long run is very motivating... Going through and highlighting my favorite parts so if I ever want to go back and find the motivational parts, I will be able to find them again right away

This book had information that was beneficial to me. This is the 1st book I've read by Chris Powell so I'm unable to compare it to the info in any of his other books. The personal experiences were motivational. The eating plan spoken about isn't one I will do to the full, but I did will use it partially and I have lost 10 pounds so far.
