Customer Reviews

This is a good one. I look forward to the continuing series. This series is definitely more 'kid' oriented. My son loved it, of course. I notice that this one is much simpler, and funnier, and lighter-hearted than the Skeleton Steve books about the hero mobs (the creeper king, teenage zombie villager, the wolf, etc.). Those are more epic and intense, and probably geared more toward big kids / teens. Not to say that they're not little-kid inappropriate. My young boy was riveted. This Wimpy Creeper series is more like harmless fun. Very well-written and polished. Oh, btw, after I bought Skeleton Steve's last book, I joined his free 'club', and he's been sending me emails with custom maps and stuff. Very cool.

Great read. My 7 year old son and I have been reading this every night before bed. He (and I) can't wait for the next one.

My two kids love this book , really good one .. Thank you

I purchased this book so I could read it with my 8 year old son. He is absolutely obsessed with Minecraft. I have watched him play the game and even attempted to try it myself at his request. I love video and PC games, but I will confess, Minecraft is not one of my favorites. Throughout the course of several years of my son playing it I have learned about the many characters and all the different materials. That being said, I really enjoyed this book. The experience of sharing something my son absolutely loves with him was fantastic. I read with my children (8 and 3) almost every night. This book kept my son's attention the entire time we read it. My 3 year old daughter was happy to

listen to the story and my son's commentary with the help of her stuffed MLP toy.

I really really like your books. Ever since I read Diary of Steve the Noob I have really liked your books. Sure I repeated about how I like your books twice, but that's how things just went. Also how long does it take to write your books? I'm waiting for Diary of a Wimpy Steve : book 13. I think that the creature is either herobrine or a mutant zombie that a witch threw a speed splash potion on it by accident or an army of spider jokies. What I'm really trying to say is that really really like your books. Can't wait till next book and with that I'm off.

. He has hated reading and I have to fight like crazy to get him to reD his school assignments. But today this book arrived. I started reading the book to him. After 2pages I told him I WS "too tired" and if he red some I would read more to him After my little break. Well he started reading to me and kept going! I am buying more of these books! As a 40 y.o. woman with no interest in Minecraft. I would have stopped reading this book after the title. So glad I tried it with my son. Im looking for more books like this to keep himd reading this summer!

This book is valuable. It is as like as the diary of a wimpy kid apart from with Minecraft. I love Minecraft and also the diary of a wimpy kid. So, what could be better! This book is great for anyone looking for a good laugh. The book is written truely better and the dialogue is not to be missed. I had to read it in one sitting since the story is really engaging in the Minecraft world. I am still laughing after reading this one and the kids love it too. Definitely recommend this book for anyone who wants to laugh a little!

As soon as we finished this book my son asked if there were more. I am planning on purchasing the next 2 books (both at the same time to save a little cash) as soon as we are finished with our library books. I have to say that I am more of a fan of Minecraft now than I was prior to reading this book. I feel like I might give the Minecraft Story Mode game another shot now. I was able to enjoy this awesome book at a discount. My genuine opinion of this book is that it is a fantastic story that deserves a 5 star rating.
