Pathways In Surgery, 3Ed (Hodder Arnold Publication)

Synopsis

As a trainee surgeon, this uniquely structured book leads you step-by-step through the possible cases you will be called upon to manage. This problem-based approach is illustrated clearly by the use of algorithms or 'pathways', accompanied by more detailed textual information. The consistent use of these algorithms throughout all chapters helps teach clinical skills by presenting a logical and structured approach to clinical problems. Essential areas of knowledge are highlighted in each chapter to help guide you through the subject. Substantially expanded and updated since the last edition, Pathways in Surgery now covers the whole of surgery adding eyes, ear nose and throat, cardiothoracic, orthopaedics and more extensive coverage of urology to chapters on general surgery. To ensure authoritative descriptions, authors have been chosen for both their specialist knowledge and their experience in teaching hospitals. This book is primarily intended for all students of surgery, both pre-qualification medical students and surgical trainees studying for higher qualifying examinations such as the MRCS. It will also be a useful reference for general practitioners and established surgeons wanting an up-to-date refresher course in fields outside their own specialty.

Book Information

Series: Hodder Arnold Publication

Paperback: 480 pages

Publisher: CRC Press; 3rd edition (August 30, 2002)

Language: English

ISBN-10: 0340631864

ISBN-13: 978-0340631867

Product Dimensions: 9.6 x 0.9 x 7.4 inches

Shipping Weight: 2.3 pounds

Customer Reviews

...this book is very comprehensive, offers great value for money, and probably lends itself very well to today's problem orientated approach to medical education. Postgraduate Medical Journal..this

book is a must for the clinical medical student. The Basic Surgical Trainee doing the MRCS will find this book a very useful adjunct to revision
The Surgeon

Michael Hobsley, University College Medical School, London. Paul B. Boulos, Professor of Surgery, Department of Surgery, University College Medical School, London.
