First, the on line free up to date travel info did not work, repeated internet error. Secondly, I had hoped and expected that an ebook would be filled with internet connections (I am okay with some going out of business), this ebook was not. And finally I expected a few maps to hard to find places with more detail. Sorry, would not recommend this ebook.

This is our first trip to Maui and this book gave a great overview and enough information to "wet my appetite". It was also the first book I put on my new Kindle! For those who already know how to bookmark and make comments as they read the book, it will be even more valuable. Great value.

Fairly accurate guide to the island's many sights. I bought the book and took it with me on my first, and probably my last, trip to Maui. The island itself is HIGHLY overrated. The beaches of California and the Gulf Coast are much better and NOT as CROWDED. I went in the off season. I wonder what its like during tourist season!

Interesting reading. It sounds like most everything was touched. Looking forward to vacationing in Maui and visiting lots of the places he talks about. Would give it 5 stars but I'm waiting to see how his recommendations pan out. Otherwise, really good book!

Tells you about the various regions of Maui and some of the highlight sights of each. Doesn't tell about specific beaches, etc. and there is nothing at all about restaurants or commercial locations. And no specific directions to finding things. I would use a different guide book and wouldn't recommend this one.

I've traveled to Maui many times, but I usually don't bring any travel books. This guide went into my ipad Kindle library, and was a handy reference guide for some activities I usually don't bother with. Easy to follow, and up to date.- ozmatoo

Gives a terrific overview of Maui and is an easy quick read. Gives ideas to further research and even links for that. I found this helpful.

This book lacked any real detail. If you are looking for legitimate travel guides, go with some of the others. The information you find in here could be garnered from the internet in just a few short searches.
