This is very nice and a great value for the price. The pop-ups are very large, colorful, and intricate. The little girl I gave it to loved it. My only wish is that it had a couple more pages - still I highly recommend it if you have a child who is into pop-up books - and most I know love them. Plus they can learn about the rainforest and what animals live there. Really very nice quality and you can't go wrong giving this as a gift. Highly recommend.

Wow! Probably best for 4 yrs and up, as it's delicate,, but I'd say get it while it's available and save it

I got this book for my grandson. He patiently waited for it for about one year. He loves to read and study about the rainforest. The popup pages were really very detailed. We have looked at the book together and he read it to me. That in itself is priceless. the only thing I didn't like was the fact that I took so long to get this for him. I really think children in grade school would enjoy this book also.

Lovely graphics. I really enjoy the pop up with all of the animals enclosed within the pop up.

Beautiful book

This book was a great hit with my grandson! Loves it.

A beautiful piece of work! The book is very detailed with each page! Tells a story about the rainforest and its habitat and beautiful wildlife! This is a keeper!

This one completes my son's set of these pop up books. He LOVES them.
