Customer Reviews

Good Read, Free when I got it.

Figuring out how to shoot legitimately will give you a lot of fulfillment; it is an expertise which, once aced, will even now abandon you with extra difficulties fit as a fiddle of different bowmen and diverse sort so bows.

A perfect beginner's guide to start your bow hunting experience with. It tells all in detail about how to take precautionary measures with bow hunting and stuff, which is quiet important because without any guidance you could hurt yourself.

The perfect writer and perfect book on hunting like always. I am so impressed from this book as well as writer. The writer tries to convey each and every little point about the hunting to their reader. amazing book.

Most of the information was very basic and just covered highlights of different bows. I was looking for new information that is not obvious and common sense.
