Dark Light Consciousness: Melanin, Serpent Power, And The Luminous Matrix Of Reality
How to awaken the Ureaus—the serpent power of spiritual transcendence within each of us—and connect to the superconscious of the universe. Reveals the biochemistry of how the body’s melanin provides the template for the subtle energy body or light body. Shows how embracing the dark light consciousness of the awakened Ureaus opens a portal to the sacred darkness of the superconscious. Provides illustrated instructions for meditation practices, breathing exercises, and yoga postures to safely awaken Ureaus/Kundalini energy. Within each of us lies the potential to activate a personal connection to the superconscious. Called “Ureaus” in ancient Egyptian texts and “Kundalini” in ancient Hindu yoga traditions, our innate serpent power of spiritual transcendence inhabits the base of the spine in its dormant state. When awakened, it unfurls along the spinal column to the brain, connecting individual consciousness to the consciousness of the universe enfolded within the dark matter of space. At the root of creativity and spiritual genius across innumerable cultures and civilizations, this intelligent force reveals portals that enfold time, space, and the luminous matrix of reality itself. Combining physics, neuroscience, and biochemistry with ancient traditions from Africa and India, Edward Bruce Bynum, Ph.D., explores the ancient Egyptian science of the Ureaus and reveals how it is intimately connected to dark matter and to melanin, a light-sensitive, energy-conducting substance found in the brain, nervous system, and organs of all higher life-forms. He explains how the dark light of melanin serves as the biochemical infrastructure for the subtle energy body, just as dark matter, together with gravity, holds the galaxies and constellations together. With illustrated instructions, he shows how to safely awaken and stabilize the spiritual energy of the Ureaus through meditation practices, breathing exercises, and yoga postures as well as how to prepare the subtle body for transdimensional soul travel. By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. By embracing the dark, we transcend reality to the dimension of light.

**Book Information**

Paperback: 368 pages
Publisher: Inner Traditions; 1St Edition edition (June 19, 2012)
Language: English
ISBN-10: 1594774722
Product Dimensions: 6 x 0.9 x 9 inches
Shipping Weight: 1 pounds (View shipping rates and policies)
Edward Bynum has written a complex guide that brings together ancient and modern sciences, ethics, biology, spiritual teachings, and subtle physiology and provides specific energy and meditation practices to activate and explain the awakening of kundalini energy and its highest functioning in an individual. He has introduced ancient tantric understanding of subtle body energies rarely available to the public, along with practices that allow one to discover their existence for themselves. This book will be highly useful for personal growth and offers a foundation for new research and experimentation that can bring science and the realization of consciousness together.

A true alchemy of the body and the spirit. — Bonnie Greenwell, Ph.D., founder of Shanti River Center in Ashland, Oregon, and author of Energies of

Dr. Bynum provides advice—with helpful illustrations too—on meditation, breathing and yoga practices to prepare for soul projection and help effect the connection with the superconscious. — (Nexus Magazine, October 2012)

In this fascinating book, Edward Bynum throws down a gauntlet to science that may very well result in the most revolutionary research ever done on consciousness. His groundbreaking ideas challenge not just what we know about enlightenment but the very nature of light itself and—more importantly for each and every one of us—our journey toward it. — (Teri Degler, author of The Divine Feminine Fire and The Fiery Muse)

Edward Bruce Bynum remains the preeminent and most prolific behavioral health scientist who can raise our higher state of consciousness by linking modern concepts of melanin, contemporary views on meditation, and ancient mysticism. — (T. Owens Moore, Ph.D., professor of psychology at Fayetteville State University and author of The Sc)

By embracing the dark light of the shining serpent within, we overcome our collective fear of the vast living darkness without. By embracing the dark, we transcend reality to the dimension of light. EDWARD BRUCE BYNUM, Ph.D., A.B.P.P., is a clinical psychologist and the director of behavioral medicine at the University of Massachusetts Health Services in Amherst. A student of Swami Chandrasekharanand Saraswati and a winner of the Abraham H. Maslow award from the American Psychological Association, he is the author of several books, including The African Unconscious. He lives in Pelham, Massachusetts.

The book is a fascinating experience into the mind, body, and spiritual awakening.

I'm going to have to read this book a few times. Very informative book for those that know a little something about Space time Continuum, meditation and different dimensions. In order for me to fully assimilate this however, Im going to need a crash course in the aforementioned.

Hotep.... This book is life changing, it lifts the illusionary veil and gives insight into the high science and dynamic reality of the world that has been forgotten.... Melanin Energy = Black Power ;)

A deep and complex scientific exploration, sure to keep you wondering long after you finish reading. Not for the casual reader.

This is by far one of the best books I've read in a while and I've read quite a few. It's not only a book
of describing what the serpent power is but provides scholarly and scientific evidence for his statements that can withstand intense scrutiny. There are also techniques for use to aide in awakening the sleeping serpent which is dangerous without the aide of a qualified spiritual preceptor, so although I highly recommend this book I also recommend you seek out a kundalini yoga instructor for a safe approach towards the aims of this book. A good book to compliment this one is the book "The Serpent Power" by Muata Ashby

THIS BOOK HAS THE POWER AND KNOWLEDGE TO CHANGE THE WORLD. Literally every page you turn you are handed different pieces of the puzzle of life and the author gives you the map to start putting all the pieces together. This is a book FULL of information that really opens up a new dimension in life itself. It really puts into perspective how dumb and out of tune the people of the world have become. We have all of this high tech stuff but I can honestly say that the Egyptians were as advanced as this civilization on earth has ever been. Everything you are searching for in this world is inside of you! Learn how to master your body and soul and their will be no more secrets to find! This is one of those books you put on the top shelf of your collection, lol. If you are not educated, make sure you have a dictionary near by because this guy is very educated and throws around big heavy words with ease like a bodybuilder does weights. Must read for everyone black, green, brown, yellow, white, purple and blue people, the whole rainbow needs this book. HIGH SCIENCE

Dark Light Consciousness is a powerful book for anyone that is truly interested in topics concerning ancient theology, serpent power (kundalini), melanin, and the science behind all of this. A lot of the information you will read in this book will be so incredible that you are going to ponder whether or not this is some new age woo or honest scientific research. After I spent more time fact checking the information in the book and verifying the sources used, I can confirm that the author has done his true diligence in his research. I even emailed the author on one occasion to inquire into a certain claim he makes in the book, and he sent me more sources to verify it. This is truly an enlightening book that anyone searching for knowledge will enjoy.

Love this book. At first over my head, but later very enlightening. Thanks
