Customer Reviews

Never seen such poor instructions, partial chord patterns, some shown completely incorrect. Trash canning it. Will order a real chord book. Bad habits throughout.

Arrived as described - thanks!

This line of books are great for teaching a beginner on guitar. It transitions very smoothly. And, a lot is learned in a short period of time. Love these books! Thanks

As a professional guitar teacher I start all young beginners with this series. The Theory book provides a great way to reinforce the musical concepts introduced in the other volumes.

I teach elementary guitar class and I also teach privately. I have used this book for many years with a lot of success. Students have goals to accomplish and moves at a student friendly pace. I have

tried other methods but always come back to this book.

Good teaching tool for our 6 year old son

This was the set of guitar books recommended by my kids' guitar teacher, and they seem to be learning well with it.
