Clinical Nurse Leader Certification Review, Second Edition

Synopsis

Now in its second edition, this book remains the only comprehensive resource for clinical nurse leaders preparing for certification. The guide stems directly from Dr. King's acclaimed exam preparation course, which resulted in a 100% pass rate among students who took the course. The second edition reflects the new requirements of Competencies and Curricular Expectations for Clinical Nurse Leader Education and Practice (2013), featuring new and updated chapters with information about risk mitigation, lateral integration, interprofessional skills, care coordination, and evidence-based practice; an updated glossary of key terms; and new multiple-choice questions and case studies. The resource mirrors the format of the AACN exam, and continues to cover all aspects of the current test, providing detailed information on taking the exam, how to analyze and interpret exam questions, basic test-taking skills, questions to stimulate critical thinking, a sample exam with answers and rationales, and content review of everything you need to know to succeed on the exam. The review not only helps individuals preparing for the exam, but also provides strategies to help groups of students make the best use of the book. It offers direction for faculty who are designing review courses and serves as a valuable resource during the clinical nurse leader program itself.

NEW TO THE SECOND EDITION: Reflects new competencies Presents new and updated chapters Includes a new glossary of terms Provides new multiple-choice questions and case studies Addresses risk mitigation, lateral integration, interprofessional skills, care coordination, and evidence-based practice

KEY FEATURES: Delivers top-notch, comprehensive test-preparation assistance Presents guidelines on question dissection and analysis Facilitates critical thinking with multiple-choice questions and case studies written by certified clinical nurse leaders

Customer Reviews

Cynthia R. King, PhD, NP, MSN, RN, CNL, FAAN, is an owner and consultant of Special Care Consultants. She specializes in consulting in health care and nursing as well as writing and editing. Previously, Dr. King was a full professor and developed a clinical nurse leader program while at Queens University of Charlotte, North Carolina. She has presented numerous times at the American Association of Colleges of Nursing Clinical Nurse Leader (AACN CNL) conference on the template she developed for a CNL review course on how to best study for the CNL certification exam. Dr. King has worked as a clinician (staff nurse, clinical nurse specialist, nurse practitioner), educator, administrator, and researcher. She presents nationally and internationally and has been a keynote speaker at several major meetings. Dr. King has published extensively, including four books and numerous articles in peer-reviewed journals, and she has served as editor-in-chief of two nursing journals. She serves on numerous local, regional, and national committees and boards of nursing associations, nonprofits, and foundations.

Sally Oâ™Toole Gerard, DNP, RN, CDE, CNL, is an associate professor and track coordinator of the nurse leadership graduate program at Fairfield University, Fairfield, Connecticut. Dr. Gerard has been in nursing for over 25 years and has a background in critical care and hospital education. She specializes in diabetes as a certified diabetes educator. Her publications and research focus on diabetes and improvement of patient-related outcomes, and include five articles published in peer-reviewed journals. Dr. Gerard has been involved in a number of academic collaborations with local hospitals to introduce evidence-based practice and improve quality care in the acute care setting. She has completed training in a national partnership for health care improvement practices with the Dartmouth Institute for Health Policy and the American Association of Colleges of Nursing. Dr. Gerard presents nationally and internationally on the subjects of nursing leadership and improvement science.

Now I must warn you. I only read half the book and did around 107 of the questions BUT I did pass the CNL exam on the first try! The book was easy to read and although at times repetitive, it was helpful. I would highly suggest this book. Also, for future exam takers, try not to stress and read every question carefully. Do not answer carelessly because you're tired.

This book, indeed, was a wise investment. It's the updated version of this text which sorely was needed. It's concise, well written and easy to understand.

i used this book, along with the white papers and some practice questions from the website and passed the cnl exam

Great review! Definitely helped me pass the exam for sure!

Great recourse!

came on time and was exactly what I needed

For Clinical Nurse Leaders, this is a useful curriculum and study resource!

Good CNL review book
