# Illuminated Letters Sketchbook (Interactive Journal, Notebook)

## Synopsis

Learn how to illuminate your writing like the scribes of the past! Bring letters to life with plant and animal motifs, swirling vines and leaves, graceful arabesques and flourishes, fantastical imagery, and more. Draw creatures cavorting across the page as Gothic illuminators did, or create the knotwork seen in famous Celtic manuscripts. Step-by-step tutorials, tips for creating striking effects, and blank letterforms you can illuminate yourself make this the perfect modern-day guide to the medieval art of beautiful writing. Includes an elegant spring-green ribbon bookmark with which to keep your place. 160 pages. 6-1/4 inches wide by 8-1/4 inches high. Jane Sullivan is a Medieval-style illuminator and fantasy artist. Her other works include guides to illuminated lettering, calligraphy, and drawing fairies and other fantastical beings.

## Customer Reviews

Easier, more practical approach than other books I have on illuminated lettering. I would have preferred more examples since I have my own graph paper, but for those who like to keep everything in one place it provides enough practice space on the same page so you don't have to keep looking back or turning pages.

I'm not an artist, but I love creating beautiful things. This little book is constructed nicely, and is a great size to 'take along.' The instructions and diagrams are simple to follow. And - it's fun! I'd buy it again, for sure!

Love this. In my opinion, it should be a bigger, maybe 8X10 size, so you're able to draw bigger

letters. But I guess it's meant to be a more portable book. Still love it!

Thank you so much for this sweet, helpful little jewel of a book. I've never created an online review but I wanted you to know that I appreciate everything about it and especially I appreciate you for creating it and making it available. Marci San Rafael, California

Excellent book for decorated letter ideas. Very user friendly.

Not a bad book but definitely not what I was expecting. The back of the books states: "Learn how to illuminate your writing ... Step by Step Tutorials" ... uh ... not quite. There were just six "instruction" pages in the book. The other pages are letters with some sort of "illumination" minus the steps (see attachment). Most letters are illuminated 2 different ways ... most of them are in black & white. I can use this for some ideas of course, so it's not a total waste, however I was really expecting something different.

Nice, but the ink used on the examples is much too pale. It also needs to contain more designs.

This little book is fabulous for beginners. I recommend it.
