Rachel and Peak are fun to follow in their neverending hunt to solve crimes. This series had me riveted to my chair

So far I have read 2 of the 3 stories in this group. I love them. I could feel the oppression that the dead had on the detective. I definitely recommend that you read this set.

This book was fantastic!! Can't wait to read the rest in the box set. I was lucky enough to get this in a free download. If you are a lover of murder and mystery, I urge you to read this. It was riveting and I couldn't put it down. Well back to the rest in the set. Happy reading.

What a delight. A ghost story with a terrific edginess. The writing was great. The pacing superb. Never a dull moment. I look forward to more in this series

Really enjoyed the first story

Loved it! I want to read more of Rachel and Jensen! Started this on Saturday when I couldn't watch any more on our current situation here in Houston. Thank you for taking my mind off all this flooding and stress. I've read some of your other books and always have my eye out for your work, thank you again for the escape!

So I give the premise behind the book 5 stars but editing & proofreading 2 stars. Stories were great but the stupid grammar & spelling mistakes were really annoying. For example: the pianist played "ballots" instead of "ballads". She "shuttered" instead of "shuddered". Lots of other errors that definitely should have been caught. Maybe the author & editor will be more careful next time.

Thoroughly enjoyed reading this set. Riveting is what I'd call it. Who done it, why and then there was more to discover. All was resolved satisfactorily with a new mystery surely to come.
