Customer Reviews

Great, detailed information!

A great travel guide book! Looking forward to my trip!

A little light on hotel and restaurant recommendations

The best travel guides there are lonely planet-they take you places you otherwise may not find.

This book was good for general background about the country and general travel planning tips. The restaurant tips were helpful and we found several good spots through the book (we always double check with the internet since restaurants can go out of business between printings). However, where I found this book lacking was in maps and directions for city walking tours. I am usually a good map reader and always carry a paper travel book in European cities to follow suggested walking tours. However, we tried to use the maps for walking in Lisbon and Porto but found them somewhat useless. We needed to use google maps to navigate our way around.

Get the paperback edition -- way easier to navigate v. Kindle version (fortunately had both!)

Well written and all the informations you need. Loved the maps and restaurants recomendations.I will use lonely planets guides again!

So disappointing. I've always loved Lonely Planet guides, but this one I wish I could return. Terrible. Have to use other resources to plan my trip.
