Maximum Security (Cherub Book 3)

Synopsis

CHERUB agents are all seventeen and under. They wear skate tees and hemp, and look like regular kids. But they're not. They are trained professionals who are sent out on missions to spy on terrorists and international drug dealers. CHERUB agents hack into computers, bug entire houses, and download crucial documents. It is a highly dangerous job. For their safety, these agents DO NOT EXIST. Two hundred eighty child criminals live in the sunbaked desert prison Arizona Max. One of them is the son of a weapons dealer who has been selling U.S. missiles to terrorists. If CHERUB can get the kid, they can get the parent. Over the years, CHERUB has put plenty of criminals behind bars. Now, for the first time ever, they've got to break one out....

Customer Reviews

I have never picked up a book series and have been so amazed by words on paper. Robert Muchamore has a serious skill for making you feel as if you are standing right in the middle of these stories. I originally borrowed the book series from my cousin but they were just so good I had to buy my own set as I couldn't stop reading them. Maximum Security is another Robert Muchamore book

that you will plough through without even realising how much you have read and at that stage you will realise your done. This is definitely the best book that was written by Muchamore, there was so much thrill and excitement while reading this book. Stop reading this review and go buy it!!!!

My son was addicted to this series of books and couldn't wait to read them all. He read each one in one night. That is how much he loved them. He has also read them all multiple times. He was about 14 when he read this series.

My grandson introduced me to this series, and I'm glad he did! I have five "missions" and have read three so far. The premise is interesting, the teenagers are believable and mostly likeable. It's a fast read, full of action and low on teenage angst. Add ten years to the characters' ages and it would no longer be a young adult series. I look forward to more in the series.

Maximum Security is a book which not only will suck you in but make you wish you were sitting next to the protagonists talking to them. Robert Muchamore manages to bring his characters to life no one else. I strongly suggest this book to anyone who is in to action and espionage.

This book is full of action and never boring I recommend this book to no one younger than twelve but I advise reading for I thoroughly enjoy reading and will get the next book the killing so if you are over twelve and like spies action and never boring then get this book.

Shipping took forever! Book came from the east coast to hawaii. I was tracking it all the way. For 12 days, it was sitting in a california facility. Only until I email the facility, did the book come a couple days later, but no response from the shipping company. But all in all, book was great, my nephew finished it way faster than the shipping time! I can wait for the next book. Looking on now for book 5.

My 14 year old daughter is devouring this series - she read this one in the span of just a few days. She doesn't want the series to end.

THIS BOOK WAS great it keeps up with the last two books it was intended and makes you want to keep reading.
