Susan Scott writes the "Ocean Watch" column for the Honolulu Star-Advertiser and has written eight books about nature in Hawaii. Her newspaper columns about Kilauea generate more reader e-mail than all other subjects combined. Scott shares Johnson's fascination with these extraordinary birds and has followed his research for over three decades.

A visit to Oahu isn't complete without a visit to Hanauma Bay, the premiere snorkeling spot. This book gives you all the basic information you need. What sets it apart are its 6 Tours. From walking to snorkeling to scuba, one of the tours will fit your experience level and needs. Each tour shows exactly where to go and what you might see. So much of the underwater wildlife can be seen in

many places in the bay, so it's good to look at all the tours for the critters you might encounter. The pictures are beautiful and really help you identify the fish and other animals you see. This version is updated to reflect the areas now closed to the public for safety reasons, like The Toilet Bowl and the ledges on either side of the bay. The book is also the perfect size to slip into your pack to take with you to the bay.
