IF you don't know more than the very few everyday positions, THEN you should definitely have some fun with it. IF you're interested in something to spice up things that you have been doing for years, chances are you aren't going to really learn much more than you've figured out on your own. But, overall a very helpful read, because this book combines the spice of ancient eroticism with the candid instruction of a modern sex guide. This book gives tips on awakening all the senses and how to arouse your partner, as well as erotic positions to take you to the edge.

This book is a total waste of money and time. It's not even a book. It's a 28 page pamphlet with information you could find anywhere online. No pictures or illustrations. I feel cheated by this sub par product.

I realized that Kama Sutra is not only a book that contains a sex position but also the spiritual leadership that will help to find harmony with your partner. Liked the book, now I will think how to use that knowledge. The book is written in simple and understandable language

This is a very small book with very little information. It is poorly written and has many spelling and grammatical errors. Most of the positions refer to one or the other partner being overweight. This book is one overweight woman's perspective on 6 or 7 kama sutra positions.

The Kama Sutra is a classic collection sexual positions for lovers. I used to think that it is, but it is actually not. This book destroys all the prejudice about this. Kama Sutra is a spiritual community, which is confirmed with the sex. I liked it and put 4 Stars

I found this guide so much interesting and motivating to read. I had no idea that trying to spice up my sex life with my lady was going to be so easy and fun. I recommend this book to sex lover, you will find Information about different types of sex.
