Mostly has no 'open concept' designs. I only found a few that seemed to be almost that. Not really useful in 2016, but was interesting to look through. Ok for the price.

very helpful . Thanks to this book I picked a plan out off it and having my house built now.

Nice variety of homes, and information. worth looking at.

Found the one we're building!!

Terrific book full of 97% modern ranch plans. Great use of space with move of the designer/architect plans. House plans are not in order by square footage - which would be a little nicer. I know that it is easy to search through internet house plans - but it is so nice to have a color book with this quality of printed paper. Cheap price for the quality. Easy to compare the plans you like.

Great!
