# Skin Care: Beyond The Basics

## Synopsis

Skin Care: Beyond the Basics, 3e is an excellent resource for esthetic students seeking practical information and the latest in skin care breakthroughs. Written by one of the country's most noted skin care specialists, this revised text offers expert instruction in an easy-to-understand manner, and provides bottom-line advice for results-oriented treatment of many frequently seen conditions. Providing real-world information in a science-based format, this text presents new and updated content on acne, aging treatment, rosacea management, sensitive skin care, and plastic surgery patient care. New information on non-invasive anti-aging programs and new ingredient technologies are presented, as well as new photos to aid in skin analysis and the identification of various conditions. The text presents numerous examples and application techniques throughout, which can be utilized in daily practice. This is a must-have resource for students interested in obtaining practical information on conditions they will see every day as practicing estheticians.

## Customer Reviews

Our school used this book for one school year as advanced training information. Our students loved the book. The material is well organized. The chapters are short, specific and focused on the objectives. I enjoyed the book and it is very informative and well put together. It's wonderful, not only for estheticians, but for those working with doctors or estheticians getting into the chemical side or learning more about the products. I would use this text for going more into certain areas. This book would be in the school library for any and all to see and read.

Dr. Mark Lees is one of the country's most noted skin care specialists, an award-winning speaker and product developer, and has been actively practicing clinical skin care for over 20 years at his multi-award winning CIDESCO accredited Florida salon, which has won multiple awards for "Best Facial", "Best Massage", and "Best Pampering Place" by the readers of the Pensacola News-Journal. He holds a Ph.D. in Health Sciences, a Master of Science in Health, and a CIDESCO International Diploma. His professional awards are numerous and include American Salon Magazine Esthetician of the Year, the Les Nouvelles Esthetiques Crystal Award, the Dermascope Legends Award, and the Rocco Bellino Award for outstanding education from the Chicago Cosmetology Association, just to name a few. In addition to these awards, he has been interviewed and quoted by NBC News, The Associated Press, The Discovery Channel, Glamour, Self, Teen, Shape Magazine, and many other publications. Dr. Lees has also been inducted into the National Cosmetology Association's Hall of Renown. Dr. Lees is former Chairman of both EstheticsAmerica, the esthetics education division of the National Cosmetology Association, and the Board of the Esthetics Manufacturers and Distributors Alliance. He is co-founder of the Institute of Advanced Clinical Esthetics in Seattle and has served as a CIDESCO International Examiner and on the national Board of Directors of the NCA. In addition, he is also a member of the Society of Cosmetic Chemists. An extremely popular and award-winning speaker, Dr. Lees is constantly in demand for his classes at professional beauty and medical conventions, as well as consumers and women's groups, and major universities including UCLA, Purdue and Columbia Universities. He has also made appearances in both Australia and Europe.

Great reference. Great price compared to books in Australia.

Easy to understand

I got this book quite a while ago now. I got it well before I became an Aesthetician and a Make up Artist. I just wanted to know as much as possible on every new thing when it came up. How to do different procedures for things and always wanting knowledge.

I haven't gotten through all of it yet, but what I have read has been well-written and easy to understand.

Lee's book is a must for all estheticians (skin care specialists) and medical personnel looking for a simple-to-understand text directed to teach and provide review about basic skin chemistry, ingredient chemistry, skin disorders, their causes, challenges, and how to treat. His chapters on "The Immune System" and "Essential Knowledge of Chemistry," give a great dialogue on understanding our immune system and basic chemistry. Mr. Lee is a great teacher. He puts difficult theories into "people language." Skin care correction for highly damaged skin is very well explained. Having been in professional skin care for 17 years, I find this book a marvelous reference. It provides some of the latest findings and theories for accurate analysis. For the lay person, new student, or beauty editor, it offers great insight into the complexity of our skin, the body's largest organ, and how it plays a vital role to protect us. It also explains about skin diseases and how they are recognized and treated. The best thing is that this is an accurate book based on science and written by a well qualified and experienced person. After all, skin care is a science and plays a large role in preventative health care.

Great text! Is exactly what I was looking for and has all the info I was looking for! Great for skin students that have to research, has everything

As a licensed esthetician, I find this book my best resource. It covers most of the questions I have had as a skin care professional and many of my client's questions as well. I consider this book essential to anyone in my profession. It is readable and understandable for anyone, those in the business or those just wanting to understand their skin and what products can help them.

Up to date information on the latest in anti-aging treatments, microdermabrasion, skin peels and exfoliators, explanation of product ingredients, and much more. As an experienced skin care specialist this book is a must for your reference library.
