The Concise AACR2

Synopsis

This practical guidebook, now in its fourth edition, has been fully revised and is now in concordance with AACR2, 2002 Revision 2004 Update. Michael Gorman, co-editor of the original AACR2, explains the more generally applicable AACR2 rules for cataloging library materials in simplified terms that make the rules more accessible and practical for practitioners and students who are in less complex library and bibliographic environments. This new fourth edition provides clear, user-friendly need to know guidance for:

- * Small libraries that require standard cataloging but don't need all the details of structure and content of the full text
- * Beginning students who need to learn about cataloging but do not intend to be catalogers
- * Paraprofessionals engaged in copy cataloging
- * International catalogers who prefer a summary of AACR2 practice

For catalogers learning the ropes, *The Concise AACR2, Fourth Edition* will provide a bridge as they progress to more complicated cataloging. Featuring new examples and updates throughout, a glossary of important cataloging terms used in the rules, and a concordance with AACR2, this is the must-have reference book for all librarians.

Customer Reviews

"...a must have for all students, librarians in the information services sectors who might need to deal with the basic rules of cataloging to input a simple record in a library management system (ILM). It is a very comprehensive, informative, and easy to follow resource for the national cataloging standards written in a clear and simple language." - Library Management --Library Management

Michael Gorman is dean of library services at the Henry Madden Library, California State University, Fresno. He has taught at library schools in his native Britain and in the United States most recently as visiting professor at the University of California, Berkeley, School of Library and Information Science (summer sessions). He is the first editor of the Anglo-American Cataloguing Rules, Second Edition (ALA, CLA, LA, 1978) and of the revision of that work (1988). He is the author of *The Concise AACR2* (ALA, CLA, LA, 1989); and *The Enduring Library* (ALA, 2003). *Future Libraries: Dreams, Madness, and Reality*, co-written with Walt Crawford, was honored with the 1997 Blackwell's Scholarship Award. His most recent book, published by ALA in 1997, is titled *Our Singular Strengths: Meditations for Librarians*. Gorman is the author of more than 100 articles in professional and scholarly journals. He has given numerous presentations at international, national, and state conferences. A fellow of the British Library Association (CILIP) and the 1992 recipient of the Melvil Dewey Medal, Gorman was elected President of the American Library Association, 2005-06.

This can be difficult to navigate, but it's much handier than trying to read the actual AACR2.

I have never had a problem with purchases, so I did hesitate to "rent" this textbook to complete a class. I am on a deadline, and the book that was supposed to be here Friday still has shown up (Saturday night). I'm in some serious trouble, and yes, I shouldn't have waited. Not happy with this purchase at all.

Michael Gorman, one of the primary writers of Anglo-American Cataloguing Rules, 2nd Revision, has summarized the rules in simple English so they can be used by relatively untrained personnel in small, uncomplicated catalogs. The cataloging described in *Concise AACR2* is compatible with the larger work and will allow users to grow into more complex cataloging when their skill increases.

This book is well written and easy to follow. There is plenty of room to add your own notes, and high-light text for exam purposes. I live in Australia and was impressed by the speed of the shipping, two weeks earlier than expected.
